

VIRGINIA STATE CRIME COMMISSION

Expungement and Sealing of Criminal Records

2020 ANNUAL REPORT

EXPUNGEMENT AND SEALING OF CRIMINAL RECORDS

EXECUTIVE SUMMARY

During the 2020 Regular Session of the General Assembly, numerous bills related to criminal conviction relief were referred to the Crime Commission.¹ The Executive Committee of the Crime Commission directed staff to conduct a review of expungement in Virginia and of criminal conviction relief in other states, with a particular focus on the automatic sealing of criminal charges and convictions.

Criminal conviction relief refers to the practice of either removing or limiting access to certain charges or convictions on a person's criminal record. The two most common forms of criminal conviction relief in the United States are sealing and expungement. Sealing is generally defined as preventing access to a record, while expungement is generally defined as erasing or destroying a record. However, these definitions vary considerably by state. In addition, states use a significant array of other terminology to describe their own criminal conviction relief mechanisms. For purposes of this report, unless otherwise noted, the term sealing will be used to describe all criminal conviction relief mechanisms throughout the country.

Various matters intersect when examining criminal conviction relief, such as the collateral consequences of criminal charges and convictions, the disproportionate impact of the criminal justice system on certain racial and ethnic populations, desistance from crime, and redemption time. When examining these intersections, staff found that:

- Criminal charges and convictions can negatively impact a person's life long after they have completed the terms of their sentence;
- Certain racial and ethnic populations are disproportionately represented across the entire criminal justice system;
- Criminal offending varies considerably from individual-to-individual over the course of a lifetime; and,
- If a previously convicted person refrains from further criminal activity, there is a point in time when that person will present no greater threat of committing a new offense than a person with no criminal record.

Criminal conviction relief laws have been proposed as a mechanism to help alleviate the collateral consequences of a criminal record. States generally have two options when implementing criminal conviction relief processes. States can implement a process where an individual must petition a court to have their criminal record sealed (*petition-based*

sealing), or states can create a system whereby an individual's criminal record is automatically sealed at a specified time following the disposition of their case (*automatic sealing*). Both petition-based sealing and automatic sealing require certain conditions to be met before a criminal charge or conviction can be sealed.

Virginia law does not provide a mechanism for criminal conviction relief; however, the Commonwealth does have an expungement process to remove certain charges from criminal history and court records. Virginia's expungement process is petition-based and is only available for charges that did not result in a conviction or a deferred dismissal. Staff identified numerous challenges within Virginia's current expungement process that not only make it difficult to expand the petition-based process, but also act as barriers to implementing an automatic criminal conviction relief process in the Commonwealth. For example, Virginia's expungement process is time and labor intensive, existing electronic records and case management systems are unable to support an automated sealing process, and there is a lack of a uniform standard in regard to which offenses appear on a person's criminal record.

In addition to examining Virginia law, staff conducted a review of various aspects of criminal conviction relief laws across the United States. When reviewing petition-based criminal conviction relief laws for *misdemeanor* convictions, staff found that:

- 41 states allow some misdemeanor convictions to be sealed;
- 11 of these 41 states allow all misdemeanor convictions to be sealed;
- 15 states place no limits on the number of misdemeanor convictions that can be sealed; and,
- The waiting period ranges from the completion of the sentence up to 15 years before a misdemeanor conviction becomes eligible for sealing.

When reviewing petition-based criminal conviction relief laws for *felony* convictions, staff found that:

- 36 states allow some felony convictions to be sealed;
- 16 of these 36 states allow some *violent* felony convictions to be sealed;
- 10 states place no limits on the number of felony convictions that can be sealed; and,
- The waiting period ranges from the completion of the sentence up to 20 years before a felony conviction becomes eligible for sealing.

Staff discovered several significant similarities and differences amongst the criminal conviction relief laws of states with petition-based sealing, including:

- Several states have enacted laws that allow for the sealing of criminal convictions related to specific circumstances, such as sex trafficking, mistaken or stolen identity, marijuana offenses, larceny, and decriminalized offenses;
- Nearly every state excludes convictions for some sex offenses from sealing, and a significant number of states exclude convictions for domestic assault and battery, DUI, and violation of a protective order from sealing;
- The starting point for determining when a conviction is eligible for sealing varies across states;
- States vary on whether restitution must be paid in full before a conviction can be sealed;
- A large majority of states grant courts the discretion to determine whether the requirements for sealing have been met, as opposed to establishing a specific burden of proof for sealing;
- Nearly all states allow individuals to deny that a sealed conviction occurred when applying for employment, while several states address the use of such records by employers; and,
- Every state maintains sealed criminal records for certain specified purposes; however, those purposes vary across states.

When examining automatic sealing laws across the United States, staff found that there are 5 states that have enacted automatic sealing statutes for broad classes of non-convictions and convictions: California, Michigan, New Jersey, Pennsylvania, and Utah. All of these states also have petition-based sealing of non-convictions and convictions. These automatic sealing laws were all enacted in the last few years, with Pennsylvania's automatic sealing legislation being the first in June 2018. It is important to note that Pennsylvania is the only state that has implemented an automated system and has already sealed records of approximately 48 million offenses in over 36 million cases. The remaining states are currently in the process of implementing their automated systems. Furthermore, staff noted that 4 states have enacted more narrow legislation to automatically seal certain minor convictions (Illinois, New York, South Dakota, and Vermont).

Staff also found that the emergence of public and private online criminal record databases has presented a significant challenge to the sealing of criminal records. In the modern information age, criminal records are not only available on state court websites, but are also gathered and distributed by third party vendors who provide background check services to certain entities, such as government agencies and private companies. Additionally, criminal records are often disseminated by news outlets and on social

media, which makes it even more difficult to restrict access to this information. Ten states have enacted legislation to regulate the dissemination of the sealed criminal records by private entities.

Crime Commission members reviewed study findings at the August 31, 2020, Commission meeting. Staff provided Crime Commission members with draft legislation to create an automated process in Virginia to seal criminal history record information and court records for non-convictions, deferred and dismissed charges, and numerous felony and misdemeanor convictions, which was endorsed by the Crime Commission. This legislation was introduced during the 2020 Special Session of the General Assembly (House Bill 5146 - Del. Charniele L. Herring).² House Bill 5146 passed the House of Delegates; however, the version of House Bill 5146 that passed the Senate was significantly different because it was conformed to Senate Bill 5043.³ The bills were sent to a conference committee between the House of Delegates and the Senate where members were unable to resolve the differences. Both bills remained in conference and neither bill was enacted into law by the General Assembly.

During the 2021 Regular Session of the General Assembly, legislation was re-introduced to create an automatic sealing process in Virginia (House Bill 2113 - Del. Charniele L. Herring and Senate Bill 1372 - Sen. L. Louise Lucas).⁴ These bills were substantially similar to the version introduced during the 2020 Special Session of the General Assembly; however, the bills included additional language to address the dissemination of criminal and court records by third parties and to provide immunity protections for employers who hire individuals with sealed criminal records. Additionally, legislation was also introduced to create a broad petition-based sealing process and a narrower automatic sealing process (Senate Bill 1339 - Sen. Scott A. Surovell).⁵ The Senate Committee on the Judiciary ultimately incorporated Senate Bill 1372 into Senate Bill 1339.

Due to the significant differences between House Bill 2113 and Senate Bill 1339, members of the House of Delegates and the Senate worked with Crime Commission staff in an effort to produce a merged version of the two bills. Compromise legislation was developed that created both an automatic and a petition-based process for the sealing of adult criminal history and court records. Both bills were amended to reflect these compromises and were then passed by the General Assembly and signed into law by the Governor.⁶ The enacted legislation addressed seven key measures related to the sealing of criminal history record information and court records in Virginia, including defining the effects of sealing, the creation of both automatic and petition-based sealing processes for certain convictions, establishing waiting periods of 7 years for misdemeanors and 10 years for

felonies before a conviction can be sealed, restrictions on the dissemination and use of sealed records by public and private entities, specific provisions for implementing the new automatic and petition-based sealing processes, and the continued study of the expungement and sealing of criminal records by the Crime Commission.

BACKGROUND

Crime Commission staff engaged in the following activities as part of its study on the expungement and sealing of criminal records both in Virginia and the United States:

- Collected relevant literature and research examining criminal conviction relief and related matters;
- Examined Virginia expungement laws, procedures, and case law;
- Obtained data on the number of expungement orders entered in Virginia annually;
- Conducted a 50 state review of other states' criminal conviction relief statutes, including automatic and petition-based processes;⁷
- Analyzed state and federal laws governing the dissemination of criminal records by third parties;
- Consulted with subject-matter experts, stakeholders, practitioners, and advocates; and,
- Worked with stakeholders to develop a legislative framework for implementing both automatic and petition-based processes for the sealing of criminal history record information and court records in Virginia.

KEY TERMS AND SCOPE OF STUDY

Sealing and expungement are the main terms that describe the various criminal conviction relief mechanisms used across the United States.⁸ Sealing is generally defined as preventing access to a record; whereas, expungement is generally defined as erasing or destroying a record.⁹ However, states vary substantially in how the terms sealing and expungement are defined in statute. For example, while several states define expungement as “to permanently destroy, delete, or erase a record of an offense from the criminal history record,”¹⁰ other states define expungement as “the sealing of criminal records.”¹¹ Similar contradictions emerge when examining the definition of sealing across state statutes.¹² Additionally, states use other terms beyond sealing and expungement to describe certain criminal conviction relief mechanisms, such as vacatur,¹³ set aside,¹⁴ restrict,¹⁵ annulment,¹⁶ order of erasure,¹⁷ order for limited access,¹⁸ and order of non-disclosure.¹⁹ Given the varying terminology used to describe criminal conviction relief

mechanisms across the United States, this report will use the term sealing, unless otherwise indicated, to describe all criminal conviction relief mechanisms used throughout the country.

Additionally, this report will refer to both automatic and petition-based criminal record sealing processes as follows:

- *Automatic sealing* describes the process whereby an individual's criminal record is sealed at a specified time following the disposition of their case, provided that conditions for such automatic sealing have been satisfied.
- *Petition-based sealing* describes the primary sealing process used throughout the United States, whereby an individual petitions a court to have their criminal record sealed, and the court holds a hearing to determine whether to grant or deny the sealing request.

Finally, this report will refer to both non-conviction and conviction records. Within the context of sealing statutes, non-convictions include arrests, as well charges that concluded without a conviction, such as cases that ended with a finding of not guilty, an acquittal, a dismissal, or a *nolle prosequi*.²⁰ Convictions refer to charges that concluded with a finding of guilt.²¹

OVERVIEW OF RELEVANT LITERATURE AND RESEARCH

Criminal charges and convictions can negatively impact a person's life long after they have completed the terms of their sentence.

Criminal charges and convictions can impose a myriad of collateral consequences on an individual that persist long after that individual is no longer involved in the criminal justice system. The National Inventory of Collateral Consequences of Convictions (NICCC) found that there are over 45,000 federal and state collateral consequences that could potentially stem from a criminal conviction.²² In Virginia, individuals who are convicted of a felony may face nearly 900 collateral consequences.²³ These collateral consequences can include, but are not limited to, impeding an individual's ability to obtain employment, housing, higher education, financial aid, loan eligibility and credit, and professional licensing.²⁴ All of these collateral consequences can severely limit an individual's ability to reintegrate back into society following a criminal charge, conviction, or release from incarceration. Additionally, criminal charges and convictions may impose a significant negative social stigma, which serves to amplify the difficulties that individuals face while attempting to rehabilitate their lives.²⁵

Certain racial and ethnic populations are disproportionately represented across the entire criminal justice system.

It has been estimated that 78 million Americans, roughly one third of adults in the United States, have a criminal record.²⁶ In Virginia's Central Criminal Records Exchange (CCRE), there are approximately 2.5 million individuals with a criminal record (arrest and/or conviction).²⁷ Criminal records have disproportionately impacted certain racial and ethnic populations.²⁸ Black persons in particular have been disproportionately arrested and incarcerated for crimes as compared to other racial groups at both national and statewide levels. Specifically, when examining the total number of arrests in the United States during 2018, Black persons made up 27% of the arrests despite comprising only 13% of the overall United States population.²⁹ Furthermore, when examining the racial composition of state and federal prisoners in the United States, 2019 data shows that Black persons comprised 33% of sentenced state prisoners and 37% of sentenced federal prisoners in the United States.³⁰

This disproportionate impact is also seen in Virginia, where Black persons comprise close to 20% of the statewide population,³¹ but accounted for 42% of the arrests in 2019.³² Moreover, Black persons comprised 55% of the state responsible offender population in the Commonwealth at the end of FY2019.³³

In addition, the disproportionate impacts of the criminal justice system reverberate well beyond arrest and incarceration rates. As discussed in the previous section, the collateral consequences of a criminal record can impact many facets of an individual's life, including employment. For example, some evidence suggests that employers are more likely to reject a job application from a Black male with a criminal record than a White male with a comparable criminal record.³⁴

Criminal offending varies considerably from individual-to-individual over the course of a lifetime.³⁵

A wide array of competing explanations have been developed to determine the correlates of crime and why individuals start criminal offending (onset), continue criminal offending (persistence), or stop criminal offending (desistance).³⁶ The presence, absence, or combination of certain factors can either mitigate or increase the risk that an individual will engage in criminal activity. Research also strongly emphasizes the impact of the timing, duration, and ordering of life events on an individual's propensity to offend.³⁷ The following factors, which can generally apply to all types of individuals and criminal

offenses, have been identified by research as impacting the onset, persistence, or desistance of criminal offending:

- Age
- Age at time of first criminal offense
- Anti-social behavior
- Drug/alcohol use or misuse
- Education
- Employment status
- Family environment
- Gender
- History of trauma or abuse
- Housing status
- Juvenile delinquency
- Levels of aggression and self-control
- Marital status
- Mental health status
- Military service
- Neighborhood
- Opportunity
- Parenthood
- Peer group
- Prior criminal history
- Prior incarceration
- Quality of interpersonal relationships
- Religiosity/Spirituality
- Self-esteem
- Self-identity
- Socio-economic status/poverty level

It is generally accepted that the vast majority of criminal offending is limited to adolescence and young adulthood, and that most individuals eventually desist from criminal offending over time.³⁸ It should be noted that desistance from criminal offending is frequently a gradual process rather than an immediate, one-time event.³⁹ Furthermore, research has repeatedly demonstrated the link between a person's age at the time of their first criminal offense and the persistence, frequency, and seriousness of criminal offending over time.⁴⁰ "Career criminals" tend to begin criminal activity at a younger age, have longer careers, and desist much later than other individuals.⁴¹

If a previously convicted person refrains from further criminal activity, there is a point in time when that person will present no greater threat of committing a new offense than a person with no criminal record.

Research appears to suggest that previously convicted individuals can reach a point of "redemption," which within the context of criminal offending can be defined as "the process of lifting the burden of the prior record."⁴² Redemption time is based on the concept that:

... recidivism probability declines with time "clean," so there is some point in time when a person with a criminal record who remained free of further contact with the criminal justice system is of no greater risk than any counterpart, an indication of redemption from the mark of an offender.⁴³

There are several ways redemption time can be measured to determine the point at which individuals with prior criminal history records resemble the non-offender population in terms of risk for a new contact with law enforcement, arrest, or conviction.⁴⁴ Research generally indicates that after a period of approximately 7 to 10 years, individuals with convictions as juveniles or young adults reach redemption.⁴⁵ However, the length of time to redemption may vary based on the type of criminal offending, with individuals who commit violent offenses taking longer to reach redemption than individuals who commit property offenses.⁴⁶ A wider variance in the length of time to redemption can also be observed when examining the *combined* impact of an individual's age at the time of conviction with their number of prior convictions.⁴⁷ The seminal piece of research examining this combined impact on redemption time found that:

- Offenders 32 years of age and older with no prior convictions resembled non-offenders in 2 to 6 years;⁴⁸
- Offenders 17 to 21 years old with 1 to 3 prior convictions resembled non-offenders after 13 to 16 years;⁴⁹ and,
- Offenders younger than 37 years of age with 4 or more prior convictions required a minimum of 23 years to potentially resemble non-offenders.⁵⁰

Limitations of redemption time research include variations across the data sources, sample sizes, sample composition, and measures of recidivism used. For instance, researchers noted that there were limitations to some of the foundational studies in terms of demographics, such as race and gender, which have previously been shown to impact recidivism.⁵¹ Research that is more recent has attempted to close this gap. For instance, one study found that male offenders generally reached redemption after a period of 10 years, while female offenders reached redemption after 4 years.⁵² When examining the risk of re-arrest among first-time offenders who are male, larger proportions of Black males were at risk of re-arrest in the first 10 years after their initial offense as compared to White males.⁵³ However, this study also found that after 10 years “there is virtually no difference between whites and blacks in their probabilities of being rearrested.”⁵⁴

Criminal conviction relief laws have been proposed as a mechanism to help alleviate the collateral consequences of a criminal record.

Proponents of criminal conviction relief laws contend that these laws can serve as a tool to help mitigate collateral consequences by allowing previously charged or convicted individuals to more easily reintegrate back into society, stabilize their lives, and become

less likely to commit a new offense.⁵⁵ For example, proponents cite recent studies that suggest that the sealing of criminal records can significantly increase an individual's ability to find employment and achieve higher pay.⁵⁶ Employment is crucial for stabilizing the lives of former offenders, since individuals who are able to find work following the completion of their criminal sentence are less likely to commit a new criminal offense.⁵⁷

A recent study of Michigan's expungement laws found that expungement recipients tended to see an increase in employment and wages following sealing.⁵⁸ However, the Michigan study found that expungement could not definitively be stated to have been the sole cause for the increase in employment and wages for individuals who successfully petitioned for expungement.⁵⁹ Another recent study from California similarly found that employment and wages increased significantly for individuals after their criminal records were sealed.⁶⁰ The California study examined a small cohort of only 235 individuals,⁶¹ and was only able to capture 3 years of post-sealing data for the cohort.⁶² Therefore, the conclusions drawn from both of these studies should be approached with caution.

Opponents of the sealing of criminal records have long stated that the sealing process is inherently flawed because it allows an individual to "falsify history."⁶³ Not only is the individual denying their own criminal record, but they are also hiding relevant information from employers.⁶⁴ Opponents contend that criminal records should be publicly available because employers and professional licensing boards have a common law duty of care to prevent foreseeable harm to others, and thus will look to criminal records as a predictor of future dangerous behavior.⁶⁵

EXPUNGEMENT OF CRIMINAL RECORDS IN VIRGINIA

Current Expungement Process

While Virginia law does not provide for criminal conviction relief, the Commonwealth does have a petition-based expungement process to remove certain charges from criminal history and court records.⁶⁶ Statutory and administrative law, along with relevant case law, govern the current expungement process. After criminal and court records have been expunged, access to those records is only permitted by an order from the circuit court that originally entered the order of expungement.⁶⁷

Virginia's expungement process is petition-based and only applies to certain non-convictions.

The term expungement is not defined in the Code of Virginia; however, per the Administrative Code of Virginia, expungement means "to remove, in accordance with a

court order, a criminal history record or a portion of a record from public inspection or normal access.”⁶⁸ The Code of Virginia only allows for the expungement of certain non-convictions, including charges that concluded in an acquittal, a *nolle prosequi*, or a dismissal.⁶⁹ Virginia courts have interpreted these categories of non-convictions fairly narrowly. For example, the Supreme Court of Virginia has denied expungement petitions for acquittals by reason of insanity,⁷⁰ dismissals following a plea of *nolo contendere*,⁷¹ and where a finding of evidence sufficient for guilt was made and the charge was deferred before ultimately being dismissed.⁷² Furthermore, traffic infractions are not eligible for expungement under the Code of Virginia.⁷³

In order to have a charge expunged, a person must file a petition for expungement in the circuit court in the jurisdiction where the charge was concluded.⁷⁴ A copy of that petition for expungement must be served on the attorney for the Commonwealth, who then has 21 days to file an objection or answer to the petition.⁷⁵ In addition, the petitioner must also obtain a complete set of fingerprints from a law-enforcement agency so that their criminal history record can be provided to the circuit court.⁷⁶ After receiving the petition for expungement and the petitioner’s criminal history record, the circuit court must conduct a hearing on whether to grant the petition, and “if the court finds that the continued existence and possible dissemination of information relating to the arrest of the petitioner causes or may cause circumstances which constitute a *manifest injustice* to the petitioner,” the court must enter an order requiring the expungement of criminal and court records.⁷⁷

Challenges within Virginia’s Current Expungement Process

There are several challenges within Virginia’s current expungement process, including time and labor intensive aspects of the process, the inability of current electronic records and case management systems to support an automated sealing process, and the lack of a uniform standard in regard to which offenses appear on a person’s criminal record. These challenges not only make it difficult to expand Virginia’s current petition-based process, but also act as additional barriers to implementing an automatic process to expunge or seal criminal records. Therefore, any measures to expand Virginia’s expungement process or to implement a sealing process, either automatic or petition-based, will require significant time and investment in order to ensure that such processes are properly implemented.

Challenge #1: Virginia's expungement process is time and labor intensive.

The expungement process in Virginia is time and labor intensive because it involves written communications between numerous agencies that maintain criminal history and court records, as well as manual labor to remove and restrict access to both the physical and electronic records.⁷⁸ For example, after a petition for expungement is filed, the Virginia State Police must review the petition along with the fingerprints submitted by the petitioner, send the petitioner's criminal history record and related documents to the circuit court, and archive any petition-related documents.⁷⁹ If the circuit court then enters an order to expunge the records, the clerk of the circuit court must send a copy of that order to the Virginia State Police.⁸⁰ This order begins the process of expunging the criminal history and court records.⁸¹

The Virginia State Police engage in a wide variety of activities as part of the expungement process, such as reviewing the order of expungement for compliance with existing law, consulting with the circuit court and/or the Office of the Attorney General in regard to any ambiguities or legal issues with the order of expungement, removing the record from the Central Criminal Records Exchange, notifying the FBI of the expungement, removing any mugshot images related to the offense, sealing any fingerprints related to the offense, sending letters to various state and local agencies notifying them of the expungement, and certifying compliance with the order of expungement to the circuit court.⁸² The Virginia State Police received approximately 4,000 expungement orders per year for non-convictions (CY2017 to CY2019),⁸³ and estimate that employees in their expungement section can process approximately 500 expungements per year per employee.⁸⁴

Similarly, both the circuit and the district courts in Virginia undertake numerous responsibilities in relation to the expungement process. The circuit courts receive the petition for expungement, establish a case in the case management system, ensure that a copy of the petition is served on the attorney for the Commonwealth, and conduct hearings on the petition. If an expungement order is entered, the circuit court sends that order to the Virginia State Police, removes related information from the circuit court case management system, and seals and stores court files related to the expunged offense until such files are destroyed.⁸⁵ In addition, if the expunged offense was heard in the district court, the district court must also remove related information from its case management system and seal and store related court files related to the expunged offense until such files are destroyed.⁸⁶ The Office of the Executive Secretary of the Supreme Court of Virginia estimates that expunging a district court record requires approximately 10 minutes of a clerk's time per expunged offense.⁸⁷ Furthermore, as

noted below, various other entities in addition to the Virginia State Police and the Virginia courts may be in possession of records that must be expunged after an order of expungement is entered.

Challenge #2: The current electronic records and case management systems in Virginia are unable to support an automated sealing process.

There are numerous electronic databases and case management systems utilized across various agencies in Virginia that may contain information related to criminal offenses. Such systems include, but are not limited to, the following:

- Virginia State Police, *Central Criminal Records Exchange (CCRE)*;
- Office of the Executive Secretary of the Supreme Court of Virginia, *eMagistrate System (eMag)* and *Circuit and District Court Case Management Systems*;
- Fairfax County and Alexandria circuit courts, *individual court case management systems*;
- Virginia Department of Criminal Justice Services, *Pretrial and Community Corrections Case Management System (PTCC)*;
- Virginia Department of Corrections, *Corrections Information System (CORIS)*;
- Compensation Board, *Local Inmate Data System (LIDS)*; and,
- Various other systems maintained by the Department of Motor Vehicles, the Department of Forensic Science, Commonwealth’s Attorneys, local law enforcement agencies, local and regional jails, and other criminal justice agencies.

These systems vary in terms of age and functionality, and while some systems are able to communicate with each other, that communication is limited in scope and nature. Due to the age and limitations of these systems, Virginia cannot implement an automated sealing process under its current technological infrastructure.

Challenge #3: Virginia law does not provide a uniform standard in regard to which offenses appear on a person’s criminal record.

Virginia law requires a report to be made to the CCRE when a person is arrested for or convicted of certain offenses.⁸⁸ Once reported to the CCRE, those arrests or convictions will appear on a person’s criminal history record.⁸⁹ Offenses that must be reported to the CCRE include treason, any felony, any misdemeanor under Title 54.1 of the Code of Virginia (Professions and Occupations), any misdemeanor under Title 18.2 (Crimes and Offenses Generally), Title 19.2 (Criminal Procedure), or any similar ordinance, or any offense under sixteen other specific Code sections.⁹⁰ However, while Virginia law sets forth offenses that must be reported, the law also allows the CCRE to receive and include

charges and convictions on a person's criminal history record that are not required by law to be reported.⁹¹

These provisions of law have led to inconsistencies as to which offenses appear on an individual's Virginia criminal history record. While certain offenses must be reported statewide, localities differ in the offenses that they voluntarily report to the CCRE. For example, public intoxication is a Class 4 misdemeanor under the Code of Virginia and is therefore punishable by a maximum fine of \$250.⁹² As such, public intoxication is not required to be reported to the CCRE; however, some localities report this offense while others do not. This practice has resulted in inequities in regard to which offenses appear or do not appear on an individual's criminal history record.

50 STATE REVIEW: PETITION-BASED SEALING OF CRIMINAL RECORDS

Petition-based sealing of criminal records varies across the United States in regard to availability, offenses eligible for sealing, time periods until a conviction can be sealed, the number of convictions that can be sealed, burdens of proof, and the retention and use of sealed records.

Petition-based sealing allows courts to exercise discretion when ruling on sealing requests.

Advocates for a petition-based sealing process argue that such a process is important because it allows judges to have discretion when determining whether a criminal record should be sealed. Additionally, petition-based sealing generally allows prosecutors and victims to have input as to whether a criminal record should be sealed. Finally, advocates contend that the court hearing itself, where the court officially seals an individual's criminal record, can have a significant positive impact on the individual whose criminal record was sealed.⁹³

Non-Convictions

Forty-five states allow non-convictions to be sealed.

Forty-five states, including Virginia, allow non-convictions to be sealed.⁹⁴ As for the other 5 states, Alaska does not seal non-conviction records, but it does require that certain non-conviction court records be removed from court websites after 60 days.⁹⁵ Arizona does not have a sealing statute for non-convictions.⁹⁶ Montana has a statute that covers the expungement of an individual's fingerprints and photographs following a non-conviction, but not the person's criminal record.⁹⁷ North Dakota does not have a statute that covers

the sealing of non-convictions; however, it does have a court rule addressing the matter.⁹⁸ Finally, Maine is the only state with no criminal conviction relief mechanisms.

Misdemeanor Convictions

Forty-one states allow some misdemeanor convictions to be sealed.

Forty-one states allow for the sealing of some misdemeanor convictions. The map below illustrates which states allow for petition-based sealing of misdemeanor convictions.

Map prepared by Crime Commission staff.

Eleven of these 41 states allow all misdemeanor convictions to be sealed.

In examining the 41 states that allow for the sealing of misdemeanor convictions, 11 states allow all misdemeanor convictions to be sealed, while 30 states place some restrictions on which misdemeanor convictions can be sealed. These restrictions are detailed later in the report.

The waiting period ranges from the completion of the sentence up to 15 years before a misdemeanor conviction becomes eligible for sealing.

The amount of time before a misdemeanor conviction becomes eligible for sealing varies considerably across states. These waiting periods can range from the completion of the

sentence up to 15 years; however, the waiting periods commonly range from 3 to 5 years. For example, 12 states require individuals to wait 5 years before a misdemeanor conviction can be sealed, while 4 states have a 5 year waiting period for specified misdemeanor convictions. Conversely, 7 states have a 10 year waiting period for misdemeanor convictions.

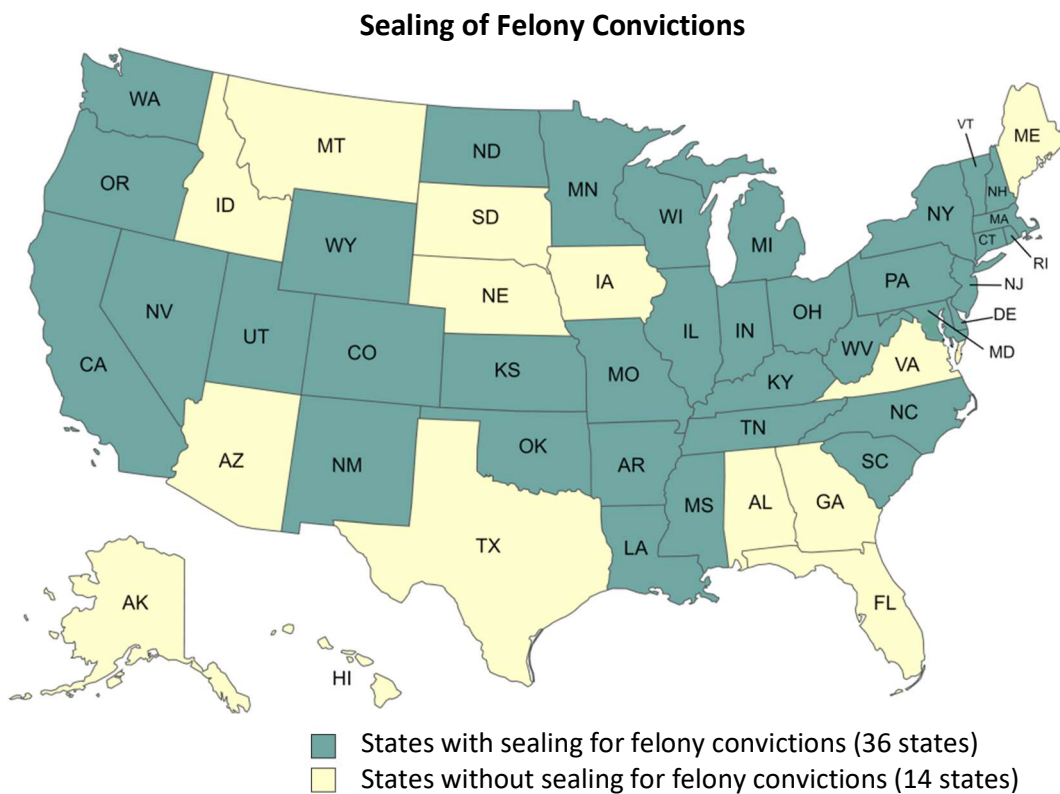

Fifteen states place no limits on the number of misdemeanor convictions that can be sealed.

State laws are similarly varied as to whether there are limits on the number of misdemeanor convictions that can be sealed. For example, 15 states place no limits on the number of misdemeanor convictions that can be sealed, while 5 states allow only a first offense to be sealed, and 3 states allow only 1 sealing petition per lifetime.⁹⁹

Felony Convictions

Thirty-six states allow some felony convictions to be sealed.

Thirty-six states allow for the sealing of at least some felony convictions. The map below illustrates which states allow for petition-based sealing of felony convictions.

Map prepared by Crime Commission staff.

Sixteen of these 36 states allow some violent felony convictions to be sealed.

In examining the 36 states that allow for the sealing of felony convictions, 16 states allow some violent felony convictions to be sealed, while 19 states prohibit the sealing of all violent felony convictions.¹⁰⁰ Only 1 state, Connecticut, allows all convictions to be sealed.

The waiting period ranges from the completion of the sentence up to 20 years before a felony conviction becomes eligible for sealing.

Similar to misdemeanor convictions, states impose a wide range of waiting periods before felony convictions become eligible for sealing. These waiting periods can range from the completion of the sentence up to 20 years; however, the waiting periods commonly range from 5 to 10 years. For example, 13 states require that individuals wait 5 years before a felony conviction can be sealed, and another 7 states impose a 5 year waiting period for specified felonies. Conversely, 11 states require that individuals wait 10 years before a felony conviction can be sealed, and another 6 states impose a 10 year waiting period for specified felonies.

Ten states place no limits on the number of felony convictions that can be sealed.

The number of felony convictions that can be sealed varies by state. For example, 10 states place no limits on the number of felony convictions that can be sealed, while 4 states only allow a first conviction to be sealed, 3 states allow only 1 felony conviction to be sealed, and 2 states provide that specified prior convictions bar a person from having any criminal records sealed.¹⁰¹

Specified Types of Convictions

Several states have enacted laws that allow for the sealing of criminal convictions related to specific circumstances, such as sex trafficking, mistaken or stolen identity, marijuana offenses, larceny, and decriminalized offenses.

Several states have enacted criminal conviction relief laws to address convictions that occurred under specific circumstances, such as:

- 45 states allow sex trafficking victims to petition for the sealing, expungement, or vacatur of convictions related to their sex trafficking;
- 17 states allow for the sealing of charges or convictions for individuals who were charged with an offense as a result of mistaken or stolen identity;
- 12 states specifically provide for the sealing of specified marijuana convictions;

- 41 states allow for the sealing of misdemeanor larceny convictions, with 34 of those states also allowing for the sealing of some felony larceny convictions; and,
- 10 states have provisions for the sealing of decriminalized offenses.¹⁰²

Excluded Offenses

Nearly every state excludes convictions for some sex offenses from sealing, and a significant number of states exclude convictions for domestic assault and battery, DUI, and violation of a protective order from sealing.

Of the 41 states that allow for petition-based sealing of convictions, Connecticut is the only state that does not exclude at least some convictions for sex offenses from being eligible for sealing. When looking at other offenses, 20 states exclude felony domestic assault and battery convictions from sealing, with 9 of those states also excluding misdemeanor domestic assault and battery convictions. Additionally, 17 states exclude felony driving under the influence (DUI) convictions from sealing, with 12 of those states also excluding misdemeanor DUI convictions. Finally, 7 states exclude convictions for protective order violations from sealing.¹⁰³

Waiting Periods

The starting point for determining when a conviction is eligible for sealing varies across states.

States begin the waiting period for when a conviction can be sealed at various times. For example, the waiting period in 19 states commences when the person has completed all of the terms and conditions of the sentence, 5 states begin at the date of conviction, and 5 states calculate the time based on when the individual was released from incarceration, probation, or parole. The other states use differing starting points, such as the date of the offense or the date of disposition. All of the states require an individual to remain conviction free during the waiting period in order to qualify for the sealing of a conviction.¹⁰⁴

Restitution

States vary on whether restitution must be paid in full before a conviction can be sealed.

An examination of state sealing statutes found that 18 states require restitution to be paid in full before sealing of a conviction can be granted, while 5 states allow restitution

to be paid after sealing has been granted. The remaining 18 states did not specifically address restitution in their sealing statutes.¹⁰⁵

Burden of Proof

A large majority of states that allow for petition-based sealing grant courts the discretion to determine whether the requirements for sealing have been met, as opposed to establishing a specific burden of proof for sealing.

In 29 of the 41 states that allow for the petition-based sealing of convictions, the court has broad discretion to determine whether the petitioner has met the statutory requirements for sealing. In the remaining states, 7 states require the petitioner to prove by clear and convincing evidence that they meet the requirements for sealing, and 5 states require the petitioner to prove that they meet such requirements by a preponderance of the evidence. The specific standards that courts must consider when ruling on a petition for sealing can include whether the harm of the conviction to the defendant outweighs the public interest, whether sealing is in the best interest of justice, and whether the petitioner has been rehabilitated.¹⁰⁶

Employment Implications

Nearly all states with petition-based sealing allow individuals to deny that a sealed conviction occurred when applying for employment, while several states address the use of such records by employers.

After a conviction has been sealed, 37 of the 41 states with petition-based sealing allow the individual to deny that the conviction occurred when applying for employment. Of these 37 states, 25 states have exceptions where an individual must disclose a sealed conviction to certain employers. Additionally, 14 states specifically limit the questions that employers can ask about sealed criminal records. Finally, 6 states provide liability immunity for employers who hire individuals who have had convictions sealed.¹⁰⁷

Access to Sealed Records

Every state with petition-based sealing maintains sealed criminal records for certain specified purposes; however, those purposes vary across states.

While states restrict access to and dissemination of sealed criminal records, all states with petition-based sealing maintain such records for specific uses.¹⁰⁸ For example, 39 states allow access to sealed criminal records for criminal justice purposes, which can include

use of such records for impeachment or other evidentiary purposes, sentencing, penalty enhancements, law enforcement investigations, or use in future proceedings related to a petition to seal a criminal record. Additionally, 26 states allow certain employers to access the sealed criminal records. Among the most common employer carve-outs are law enforcement agencies (15 states) and professional licensing boards (19 states).

50 STATE REVIEW: AUTOMATIC SEALING OF CRIMINAL RECORDS

While petition-based sealing is the predominant practice across the United States, states have recently begun to enact legislation to automatically seal certain non-convictions and convictions. As with petition-based sealing, there are variances amongst states in regard to offenses eligible for automatic sealing, time periods until a conviction can be automatically sealed, and restrictions on the automatic sealing of criminal records.

Automatic sealing significantly increases access to the sealing process for qualified individuals.

In recent years, advocacy for automatic sealing has grown because such a process increases access to criminal record sealing by qualified individuals.¹⁰⁹ Advocates for automatic sealing contend that this process increases access to sealing by removing some of the barriers that qualified individuals face under the traditional petition-based process. For example, an automatic sealing process does not require a filing fee,¹¹⁰ necessitate the assistance of an attorney,¹¹¹ or burden qualified individuals with multiple trips to courthouses, police stations, notary offices, and post offices.¹¹² In fact, qualified individuals do not even need to understand or know how automatic sealing laws work in order to benefit from the process.¹¹³

Recent data from Pennsylvania supports the contention that automatic sealing provides greater access to the process than petition-based sealing.¹¹⁴ Pennsylvania implemented an automatic sealing process in June 2019.¹¹⁵ Under this automatic sealing process, in a year and a half (June 28, 2019, to December 15, 2020), Pennsylvania automatically sealed over 48 million offenses from individuals' criminal records in over 36 million cases. Conversely, during a four-year period (November 2016 to December 2020) that pre-dated and overlapped with the automatic sealing process, Pennsylvania only sealed 3,835 offenses from individuals' criminal records in 1,681 cases under its petition-based sealing process. The massive number of offenses sealed during the first year and a half of the automatic sealing process was due, at least in part, to a significant number of qualifying eligible offenses that had accumulated in Pennsylvania's criminal records system;

however, even accounting for that backlog, far more criminal records were sealed under the automatic process than the petition-based process.¹¹⁶

Five states allow broad classes of non-convictions and convictions to be automatically sealed.

There are 5 states that have enacted automatic sealing statutes for broad classes of non-convictions and convictions: California,¹¹⁷ Michigan,¹¹⁸ New Jersey,¹¹⁹ Pennsylvania,¹²⁰ and Utah.¹²¹ All of these states also have petition-based sealing of non-convictions and convictions. These automatic sealing laws were all recently enacted, with Pennsylvania's automatic sealing legislation being the first in June 2018. It is important to note that Pennsylvania is the only state that has fully implemented an automated system and begun sealing criminal history records. The remaining states are currently in the process of implementing their automated systems.

California's automatic sealing statute provides that misdemeanors and infractions will be automatically sealed after one year from conviction as long as the individual was not sentenced to probation. Additionally, a felony or misdemeanor offense will be automatically sealed if a person is sentenced to only probation and the person completes that sentence without a revocation of probation. A person will not qualify for automatic sealing if they are a registered sex offender, or if they are on active probation, serving a sentence for another offense, or have pending criminal charges.¹²²

Michigan's automatic sealing statute provides that certain misdemeanor convictions will be automatically sealed after 7 years from the imposition of the sentence. Certain felony convictions will be automatically sealed after 10 years from the imposition of the sentence or the completion of any term of imprisonment. Felonies and certain misdemeanors cannot be automatically sealed if a person has charges pending or has been convicted of another offense during the waiting period. No more than 2 felony and 4 misdemeanor convictions in total can be automatically sealed, excluding low-level misdemeanors.¹²³

New Jersey's automatic sealing statute provides that all convictions, except for specified exceptions, will be eligible for automatic sealing after 10 years from the date of the person's most recent conviction, payment of any court-ordered financial assessment, satisfactory completion of probation or parole, or release from incarceration, whichever is later. A task force has been created to determine the technological, fiscal, and practical issues and challenges of such a system.¹²⁴

Pennsylvania's automatic sealing statute provides that certain misdemeanor convictions are automatically sealed after 10 years if there are no subsequent misdemeanor or felony convictions and all court-ordered restitution has been paid. Certain prior convictions disqualify a person from having a record automatically sealed, such as convictions for a prior felony offense, indecent exposure, a total of 4 misdemeanors, and various other offenses.¹²⁵

Utah's automatic sealing statute provides that certain misdemeanors are sealed after 5 to 7 years. A person will not qualify for automatic sealing if they have unpaid fines, fees, or restitution, pending criminal charges, or certain prior convictions on their criminal records.¹²⁶

Additional information on the automatic sealing statutes in California, Michigan, New Jersey, Pennsylvania, and Utah can be found in Appendix K.

Four states allow convictions for minor offenses to be automatically sealed.

South Dakota allows for automatic sealing of "any charge or conviction resulting from a case where a petty offense, municipal ordinance violation, or a Class 2 misdemeanor was the highest charged offense ... after 10 years if all court-ordered conditions on the case have been satisfied."¹²⁷ Additionally, Illinois,¹²⁸ New York,¹²⁹ and Vermont¹³⁰ have all enacted statutes which allow for the automatic sealing of specified marijuana convictions.

THIRD PARTY ACCESS TO AND DISSEMINATION OF CRIMINAL RECORDS

While states can restrict access to and dissemination of criminal records in possession of government entities, numerous challenges exist to limiting the sharing and use of criminal record information that has entered the public domain.

Furthermore, the online proliferation of easily accessible criminal records undermines the intention of sealing criminal records. In the modern information age, criminal records are not only available on state court websites, but are also gathered and distributed by third party vendors who provide background check services to subscribers, such as government agencies and private companies. Additionally, criminal records are often disseminated by news outlets and on social media, which makes it even more difficult to restrict access to this information.¹³¹

The emergence of public and private online criminal record databases presents a significant challenge to the sealing of criminal records.

While numerous states have enacted legislation to seal criminal records, there is growing recognition that the online dissemination of criminal records potentially undermines the rehabilitative goals of sealing. Over the last several decades, criminal records have become increasingly accessible via online court databases, making convictions, as well as non-convictions, open to public inspection.¹³² This particular challenge exists in Virginia, as the Code of Virginia requires that non-confidential court case information be made available free of charge online.¹³³ The increased access to online criminal records has allowed private companies to create their own criminal records databases and provide background checks on individuals using those private databases. This has become a thriving industry, as many employers conduct background checks on prospective employees.

Some of the private companies that currently provide, or have previously provided, these private background checks are larger database servers, such as LexisNexis and Westlaw.¹³⁴ These larger database providers are often regulated under the federal Fair Credit Reporting Act (FCRA),¹³⁵ which requires that these databases “follow reasonable procedures to assure maximum possible accuracy” of information on their websites.¹³⁶ Unfortunately, some research has shown that databases regulated under the FCRA do not always obtain their information from reliable sources, and that even when the source is reliable, these companies do not always remove sealed records from their databases.¹³⁷

Beyond these larger database servers are companies and websites that either purchase information from government websites in bulk or scrape government databases and repackage the information for sale.¹³⁸ These companies are not regulated under the FCRA and there are generally few, if any, legal or internal requirements to ensure that the information they provide is accurate.¹³⁹ These particular companies and websites are not limited only to criminal records; mugshot image websites, for example, display booking photographs and arrest information of criminal defendants.¹⁴⁰ These companies and websites can be especially damaging to individuals who are seeking to move beyond their criminal records and reintegrate into society, especially since there is little incentive for these companies and websites to ensure the accuracy of the criminal records.¹⁴¹

Ten states have enacted legislation to regulate the dissemination of the sealed criminal records by private entities.

Ten states have enacted legislation with the intention of preventing the dissemination of sealed criminal records by private companies: Colorado,¹⁴² Connecticut,¹⁴³ Louisiana,¹⁴⁴ Michigan,¹⁴⁵ Minnesota,¹⁴⁶ Nevada,¹⁴⁷ New Jersey,¹⁴⁸ North Carolina,¹⁴⁹ Rhode Island,¹⁵⁰ and Texas.¹⁵¹ These statutes typically provide that after receiving notice that a criminal record has been sealed, a private company will be subject to civil penalties for disseminating the sealed record.¹⁵² While these states have made efforts to address third party dissemination, state laws and regulations of third party providers face certain limitations, as states cannot preempt, supersede, or contradict federal law or regulations, such as the FCRA or the Gramm-Leach-Bliley Act (15 U.S.C. § 6801-6809).

Public availability and dissemination of sealed criminal records does not eliminate all of the benefits that stem from sealing legislation.

While online and private dissemination of criminal records can undermine the goals of sealing, these challenges do not completely eliminate the benefits of sealing. In fact, some research has found that even with the proliferation of online criminal records, individuals who are able to have their criminal records sealed may still benefit significantly from that sealing. The Michigan expungement study, cited earlier in the report, examined employment and wage trends for individuals who were able to have their criminal records expunged between 1998 and 2011. The study found that employment and wage gains for individuals who obtained expungement remained steady throughout the study timeframe despite the increasing Internet usage during that time.¹⁵³

CRIME COMMISSION LEGISLATION

The Crime Commission met on August 31, 2020, and heard a presentation from staff that included information on the expungement process in Virginia, as well as the automatic and petition-based sealing of criminal records across the United States.¹⁵⁴ Staff provided Crime Commission members with draft legislation to create an automated process in Virginia to seal criminal history record information and court records for non-convictions, deferred and dismissed charges, and numerous felony and misdemeanor convictions. The draft legislation contained a clause to delay implementation of the automatic sealing provisions of the law until July 1, 2024, due to the complexities of implementing this automated process across the data systems of the Virginia State Police, the Office of the Executive Secretary of the Supreme Court of Virginia, and circuit court clerks.

The Crime Commission voted to endorse the draft legislation for introduction during the 2020 Special Session of the General Assembly.

2020 Special Session Legislation

Legislation endorsed by the Crime Commission to create an automatic sealing process was introduced during the 2020 Special Session of the General Assembly (House Bill 5146 - Del. Charniele L. Herring).¹⁵⁵ Additionally, during the 2020 Special Session of the General Assembly, the Senate passed a petition-based sealing bill (Senate Bill 5043 - Sen. Creigh R. Deeds).¹⁵⁶ This Senate legislation allowed for the petition-based sealing of certain drug and alcohol convictions and deferred dispositions, as well as offenses when a person had been granted a simple pardon by the Governor. Due to the significant differences between these two bills, the legislation was sent to a conference committee consisting of members of the House of Delegates and the Senate. Both bills remained in conference and neither bill was enacted into law by the General Assembly.

2021 Regular Session Legislation

During the 2021 Regular Session of the General Assembly, legislation was re-introduced to create an automatic sealing process (House Bill 2113 - Del. Charniele L. Herring and Senate Bill 1372 - Sen. L. Louise Lucas).¹⁵⁷ These bills were substantially similar to the version introduced during the 2020 Special Session of the General Assembly; however, the bills included additional language to address the dissemination of criminal and court records by third parties and to provide immunity protections for employers who hire individuals with sealed criminal records. Additionally, legislation was also introduced to create a broad petition-based sealing process for convictions and a narrower automatic sealing process (Senate Bill 1339 - Sen. Scott A. Surovell).¹⁵⁸ The Senate Committee on the Judiciary ultimately incorporated Senate Bill 1372 into Senate Bill 1339.

Due to the significant differences between House Bill 2113 and Senate Bill 1339, a group of members from the House of Delegates and Senate worked with Crime Commission staff to produce a merged version of the two bills. Staff drafted compromise legislation as agreed upon by members to create both an automatic and a petition-based process for the sealing of adult criminal history and court records. Both bills were passed by the General Assembly and signed into law by the Governor.¹⁵⁹

In addition, staff recognized that these new sealing processes would require a substantial cost to implement. Staff worked closely with the impacted state agencies, namely the Virginia State Police, the Office of the Executive Secretary of the Supreme Court of

Virginia, the Department of Motor Vehicles, and others, to identify the necessary costs. Staff determined that there would be significant one-time expenses to purchase systems and perform technology upgrades, as well as recurring personnel expenses, all of which were funded by the General Assembly.

The enacted legislation addressed seven key measures related to the sealing of criminal history record information and court records, which are described in greater detail below. Unless otherwise noted, these changes to Virginia law will take effect on July 1, 2025; however, the legislation can take effect sooner if the new automated systems are operational prior to that date.

1. Sealing: Definition and Effects

The term “sealing” is defined as restricting dissemination of criminal history record information and prohibiting dissemination of court records, including records relating to an arrest, charge, or conviction. Sealed criminal history record information and court records are maintained and may be accessed or used for twenty-five specified purposes.

After a charge or conviction is sealed, a person is generally allowed to deny that the charge or conviction occurred; however, a person cannot deny the sealed record under the following circumstances:

- When applying for employment as a law enforcement officer;
- Where disclosure is required for employment under federal or state law;
- When being considered for jury service;
- During proceedings related to the care and custody of a child; and,
- In accordance with any other regulations adopted in relation to the new sealing provisions.

2. Automatic Sealing Process

The legislation creates an automatic sealing process for convictions or deferred dispositions of 9 misdemeanor offenses, including:

- Purchase or possession of alcohol by a minor;¹⁶⁰
- Petit larceny;¹⁶¹
- Concealing or taking possession of merchandise;¹⁶²
- Trespass;¹⁶³
- Instigating trespass;¹⁶⁴
- Trespass on posted property;¹⁶⁵
- Misdemeanor distribution of marijuana;¹⁶⁶

- Possession of marijuana;¹⁶⁷ and,
- Disorderly conduct.¹⁶⁸

Additionally, various non-convictions will be automatically sealed, including:

- Misdemeanor offenses and mistaken identity offenses moving forward in time;
- Misdemeanor offenses retroactively, if the person has no convictions on their Virginia criminal history record and no charges in the past 3 years; and,
- Acquittals and dismissals with prejudice of felony offenses, with the concurrence of the attorney for the Commonwealth, moving forward in time.

Finally, all traffic infractions will be automatically sealed after 11 years.

3. Petition-Based Sealing Process

The legislation also creates a new petition-based process for the sealing of convictions and deferred dispositions for all misdemeanors, all Class 5 and Class 6 felonies, and all felony offenses punishable as larceny; however, DUI-related convictions and domestic assault and battery convictions are not eligible for sealing. The various requirements for petition-based sealing are set forth in the new statute.

4. Waiting Periods

The legislation establishes waiting periods of 7 years for misdemeanors and 10 years for felonies before a conviction or deferred disposition is eligible for sealing. In order to qualify for automatic sealing, a person cannot have been convicted of a crime in Virginia that requires a report to the Central Criminal Records Exchange (CCRE) or of a crime in any other jurisdiction during that time period. In order to qualify for petition-based sealing, a person must also remain conviction-free during the waiting period, and must satisfy other criteria for eligibility as set forth in the statute.

5. Restrictions: Employers and Third Parties

The bill prohibits state and local governments, private employers, educational institutions, housing sales and rental agencies, and insurance companies from inquiring about sealed charges or convictions, except in law enforcement hiring and when required for employment under federal or state law. Furthermore, third parties that collect and disseminate Virginia criminal history records and traffic records must delete any such records that have been sealed or face civil liability to the impacted person and enforcement action by the Attorney General.

6. New Processes: Implementation and Reporting

The legislation contains several provisions directing how the new sealing processes are to be implemented. These provisions include:

- Directing the Virginia State Police, the Office of the Executive Secretary of the Supreme Court of Virginia, and circuit court clerks to develop automated systems in order to implement these new sealing processes;
- Requiring the Virginia Department of Criminal Justice Services to develop regulations regarding the sealing and dissemination of criminal history record information;
- Requiring any criminal charge or conviction on a person's Virginia criminal record to be removed by July 1, 2021, if it was not required to be reported to the CCRE;
- Permitting only CCRE reportable criminal offenses to be included on a person's Virginia criminal record beginning July 1, 2021; and,
- Requiring magistrates and law enforcement officers to note the corresponding Virginia Code section on a warrant or summons when issuing a charge for a local ordinance violation beginning July 1, 2021.

In addition, the bill directs various entities to provide annual reports to the Crime Commission on the status of the implementation of these new processes, beginning November 1, 2021, as follows:

- Virginia State Police, the Office of the Executive Secretary of the Supreme Court of Virginia, and any circuit court clerk with a case management system must report on the progress of the development of automated systems to implement the new sealing processes;
- Virginia State Police must also report on the feasibility and cost of implementing an automated system to review out-of-state criminal history records; and,
- Virginia Court Clerks' Association must report on the necessary staffing and technology costs of implementing the new automatic and petition-based sealing processes.

7. Continued Study of Expungement and Sealing of Criminal Records

Finally, the legislation requires the Crime Commission to continue its study on the expungement and sealing of criminal records and to examine the following matters:

- Methods to educate the public on the sealing processes and the effects of an order to seal an arrest, charge, or conviction;

- The interplay between Virginia’s current expungement statutes and the sealing of criminal history record information and court records;
- The feasibility of destroying or purging expunged or sealed criminal history record information and court records;
- Permissible uses of criminal history record information and court records;
- Plea agreements in relation to the expungement or sealing of criminal history record information and court records; and,
- Any other relevant matters that arise during the course of the study.

The Crime Commission must report its findings on the continued study of expungement and sealing of criminal records by December 15, 2021. The report is also required to include a recommendation on the creation of a review process for any future changes to the expungement or sealing of criminal history record information or court records.¹⁶⁹

²¹ This report does not include an analysis on the sealing of deferred charges. In Virginia, the term “deferred” describes the process when a court withholds imposition of a sentence and places conditions on the defendant that, when met, allow for a charge to be dismissed. Other states have similar practices, but the terminology varies considerably across jurisdictions, such as “diverted” [TENN. CODE ANN. § 40-32-101 (2020)], “suspended” [MO. REV. STAT. § 557.011 (2020)], “discharged” [N.C. GEN. STAT. § 15A-145.2 (2020)], and “conditionally discharged” [N.M. STAT. ANN. § 31-20-13 (LexisNexis 2020)] charges. Due to the varying terminology for such deferred dispositions, this report focuses solely on sealing statutes for non-convictions and convictions.

²⁸ See, e.g., Brame, R., Bushway, S.D., Paternoster, R., & Turner, M.G. (2014). Demographic patterns of cumulative arrest prevalence by ages 18 and 23. *Crime & Delinquency*, 60(3), 471-486, at p. 471 (The authors of this 2014 study found that “about 30% of Black males have experienced at least one arrest by age 18 (vs. about 22% for White males) [and] by age 23 about 49% of Black males have been arrested (vs. about 38% for White males.)”); see also Selbin, J., McCrary, J., & Epstein, J. (2018). Unmarked? Criminal record clearing and employment outcomes. *Journal of Criminal Law and Criminology*, 108(1), 1-72 at p. 4 (“Evidence suggests that by the age of twenty-three, almost one-half of all African-American and Latino men, more than one-third of white men, and almost one in eight women have been arrested.”).

²⁹ For arrest data, see Federal Bureau of Investigation. *Table 43A: Arrests by Race and Ethnicity, 2018.*, Available at: <https://ucr.fbi.gov/crime-in-the-u.s/2018/crime-in-the-u.s.-2018/tables/table-43> (last visited Apr. 30, 2021). This 2018 data shows that Black persons made up 27% of arrests (2,115,381 Black persons were arrested out of a total of 7,710,900 people arrested) despite comprising only 13% of the overall United States population; For 2018 U.S. population totals, see United States Census Bureau. *ACS Demographic and Housing Estimates, 2018.* Available at: <https://data.census.gov/cedsci/table?d=ACS%205-Year%20Estimates%20Data%20Profiles&tid=ACSDP5Y2018.DP05> (last visited Apr. 30, 2021).

³⁰ See Carson, E. A. (2020). *Prisoners in 2019.* Bureau of Justice Statistics, at pp. 20-23. Available at: <https://www.bjs.gov/content/pub/pdf/p19.pdf>. According to this report, Black persons comprised approximately 33% (409,600 of 1,249,700) of sentenced state prisoners in the United States on December 31, 2018 and 37% (57,900 of 158,107) of sentenced federal prisoners in the United States on September 30, 2019.

³¹ For Virginia population statistics, see United States Census Bureau, *Virginia*, <https://data.census.gov/cedsci/profile?g=0400000US51> (last visited Apr. 30, 2021).

³² For Virginia arrest statistics, see Virginia State Police. *Crime in Virginia 2019.* Virginia Department of State Police, at p. 65. Available at: https://www.vsp.virginia.gov/downloads/Crime_in_Virginia/Crime_In_Virginia_2019.pdf (last visited Apr. 30, 2021). In 2019, 42% (114,738 of 274,636) of those arrested in Virginia were Black persons.

³³ For corrections data, see Virginia Department of Corrections. *State Responsible Offender Population Trends: FY2015 – FY2019* at p. 7. Available at <https://vadoc.virginia.gov/media/1473/vadoc-offender-population-trend-report-2015-2019.pdf> (last visited Apr. 30, 2021). This report shows that, as of June 30, 2019, Black inmates comprised 55% (19,198 of 34,719) of the total state responsible confined population.

³⁴ Ipsa-Landa, S., & Loeffler, C.E. (2016). Indefinite punishment and the criminal record: Stigma reports among expungement-seekers in Illinois. *Criminology*, 54(3), 387-412, at p. 392.

³⁵ See, e.g., Dean, C.W., Brame, R., & Piquero, A. (1996). Criminal propensities, discrete groups of offenders, and persistence in crime. *Criminology*, 34(4), 547-574.

³⁶ There are a number of competing theories that attempt to explain criminal onset, persistence, and desistance, including but not limited to: life course theory, general theories of crime, social bond theory, strain theory, attachment theory, social learning theory, labeling theory, social control, developmental theories, criminal career/typologies, routine activity theory, self-derogation theory, and feminist theories. For an excellent overview of the various theories drawn upon to examine developmental and life course explanations of criminal offending, please see McGee, T.R., & Farrington, D.P. (2019). Developmental and life-course explanations of offending. *Psychology, Crime, & Law*, 25(6), 609-625; Sampson, R.J., & Laub, J.H. (2016). Turning points and the future of life-course criminology: Reflections on the 1986 criminal careers report. *Journal of Research in Crime and Delinquency*, 53(3), 321-335.

⁸⁶ *Id.*

⁸⁷ See Senate Bill 5043, Fiscal Impact Statement (Special Session of the 2020 General Assembly). Available at <https://lis.virginia.gov/cgi-bin/legp604.exe?202+oth+SB5043FS1122+PDF>. Court records, which are not the criminal history records maintained in the CCRE, are destroyed after statutorily set time frames in VA. CODE ANN. §§ 16.1-69.55 and 17.1-213 (2020). Generally, misdemeanor and traffic court records are maintained for ten years regardless of outcome. Felony court records, as well as court records for misdemeanor domestic assault and battery and protective order violation cases, are generally maintained for twenty years. Court records for specified misdemeanor cases, including sexual battery, prostitution, and indecent exposure, as well as felony cases for violent and sexually violent offenses, are maintained for fifty years.

⁸⁸ VA. CODE ANN. § 19.2-390(A)(1) (2020).

⁸⁹ *Id.*

⁹⁰ *Id.* The specific Code sections requiring a report to the CCRE include VA. CODE ANN. §§ 3.2-6570, 4.1-309.1, 5.1-13, 15.2-1612, 16.1-253.2, 20-61, 46.2-339, 46.2-341.21, 46.2-341.24, 46.2-341.26:3, 46.2-817, 58.1-3141, 58.1-4018.1, 60.2-632, 63.2-1509, and 63.2-1727.

⁹¹ VA. CODE ANN. § 19.2-390(D) (2020).

⁹² VA. CODE ANN. § 18.2-388 (2020). See also VA. CODE ANN. § 18.2-11 (2020).

⁹³ Adams, *supra* note 24, at p. 42 (“More so than just the outcome (a clear record), the actual process of preparing for, and successfully completing, the record clearance application and hearing can have a powerful effect.”).

⁹⁴ See Appendix A for non-conviction sealing laws by state.

⁹⁵ ALASKA STAT. § 22.35.030 (2020).

⁹⁶ Arizona uses the term “set aside” in its statutes. This term was not included in the list in note 14 because a conviction which is set aside in Arizona is not required to be redacted or removed from a person’s criminal record, and therefore it is not actually sealed. ARIZ. REV. STAT. ANN. § 13-905 (2020). Arizona does seal records for individuals who have been wrongfully arrested or charged ARIZ. REV. STAT. ANN. § 13-4051 (2020). Arizona also vacates convictions for sex trafficking victims ARIZ. REV. STAT. ANN. § 13-909 (2020).

⁹⁷ MONT. CODE ANN. 44-5-202(8) (2020).

⁹⁸ N.D. SUP. CT. ADMIN. R. 41(5)(f) (2020). Available at <https://www.ndcourts.gov/legal-resources/rules/ndsuptadminr/41>.

⁹⁹ See Appendix B for misdemeanor conviction sealing laws by state.

¹⁰⁰ Generally, in examining whether a state included violent offenses in its sealing statutes, staff referred to Virginia’s definition of violent offenses in VA. CODE ANN. § 17.1-805 (2020). See Appendix C for additional information on violent felony convictions.

¹⁰¹ See Appendix C for a felony conviction sealing laws by state.

¹⁰² See Appendix D for sealing provisions for specific convictions by state.

¹⁰³ See Appendix E for commonly excluded offenses by state.

¹⁰⁴ See Appendix F for waiting periods for sealing by state.

¹⁰⁵ See Appendix G for restitution requirements for sealing by state.

¹⁰⁶ See Appendix H for burdens of proof for sealing by state.

¹⁰⁷ See Appendix I for employment sealing provisions by state.

¹⁰⁸ See Appendix J for the maintenance of sealed criminal records by state.

¹⁰⁹ Prescott, *supra* note 24, at p. 2551 (“Taken together, our findings strongly support increasing the availability of expungement — and particularly efforts to make expungements automatic, or at least procedurally easy to obtain.”); Kessler, A. (2015). Excavating expungement law: A comprehensive approach. *Temple Law Review*, 87(1), 403-446, at p. 437 (“Automatic expungement saves judicial and individual resources, and mitigates the problem of unawareness of the expungement remedy.”).

¹¹⁰ Prescott, *supra* note 24, at p. 2504 (discussing the difficulty that many people face when filing fees are required in order to initiate a conviction relief process).

¹¹¹ *Id.* at pp. 2505-2506 (“Although expungement applications can be filed *pro se*, the process is far less difficult to navigate for an experienced attorney. Yet, too often, none are available... [and paid attorneys are out of reach for most people with records.”]; Kessler, *supra* note 109, at p. 445 (“Hiring a lawyer to petition a court for expungement is often unaffordable for record holders.”).

¹¹² Prescott, *supra* note 24, at pp. 2503-2504 (“Taking time away from work and childcare responsibilities to go to a police station to be fingerprinted, to make several trips to a courthouse, to find a notary, and to mail all these materials to the right addresses may be simply impossible, or at least difficult enough to be strongly discouraging.”).

¹¹³ *Id.* at p. 2502 (Examining Michigan’s petition-based expungement laws, the authors found that “[m]any [people] do not know that the expungement law exists at all. Others may have a vague idea that expungement is possible, but they do not know that they are eligible or they are unfamiliar with what they need to do to pursue one (or how to find out).”). The authors found that, as a result of the access issues present in Michigan’s expungement system, only 6.5% of individuals eligible for expungement in Michigan were able to have their convictions expunged within five years of eligibility. *Id.* at pp. 2489 & 2501-2506.

¹¹⁴ See Appendix L for data from Pennsylvania and other states that publish such data.

¹¹⁵ See Appendix K for additional information on Pennsylvania’s automatic sealing process.

APPENDIX A: State Non-Conviction Sealing Laws (45 States)

| STATE | STATUTE(S) | WAITING PERIOD |
|----------------------|--|---|
| Alabama | ALA. CODE §§ 15-27-1, 15-27-2 | Immediate to 5 years |
| Arkansas | ARK. CODE ANN. §§ 16-90-1409, 16-90-1410 | Immediate to 1 year |
| California | CAL. PENAL CODE §§ 851.91, 851.93 | Immediate to 3 years |
| Colorado | COLO. REV. STAT. §§ 24-72-704, 24-72-705 | Immediate to after the statute of limitations has run |
| Connecticut | CONN. GEN. STAT. § 54-142a | Immediate to 13 months |
| Delaware | DEL. CODE ANN. tit. 11, §§ 4372, 4373 | Immediate to 1 year |
| Florida | FLA. STAT. §§ 943.0585, 943.059, 943.0595 | Immediate sealing (10 years to seal) |
| Georgia | GA. CODE ANN. § 35-3-37 | Immediate to 7 years |
| Hawaii | HAW. REV. STAT. § 831-3.2 | Immediate |
| Idaho | IDAHO CODE § 67-3004 | Immediate to 1 year |
| Illinois | 20 ILL. COMP. STAT. 2630/5.2 | Immediate |
| Indiana | IND. CODE § 35-38-9-1 | 1 year |
| Iowa | IOWA CODE § 901C.2 | 180 days |
| Kansas | KAN. STAT. ANN. § 22-2410 | Immediate |
| Kentucky | KY. REV. STAT. ANN. § 431.076 | 30 days to 3 years |
| Louisiana | LA. CODE CRIM. PROC. ANN. art. 976 | Immediate to after the statute of limitations has run |
| Maryland | MD. CODE ANN., CRIM. PROC. §§ 10-103, 10-103.1, 10-104, 10-105 | Immediate to 3 years |
| Massachusetts | MASS. GEN. LAWS ch. 276, § 100H | Immediate |
| Michigan | MICH. COMP. LAWS § 28.243 | Immediate to 60 days |
| Minnesota | MINN. STAT. §§ 299C.11, 609A.02 | Immediate (certain non-convictions automatically sealed after 10 years) |
| Mississippi | MISS. CODE ANN. §§ 99-15-59, 99-19-71 | Immediate to 1 year |
| Missouri | MO. REV. STAT. §§ 610.122, 610.140 | 3 years |
| Nebraska | NEB. REV. STAT. § 29-3523 | Immediate to 1 year |
| Nevada | NEV. REV. STAT. ANN. § 179.255 | Immediate to after the statute of limitations has run |
| New Hampshire | N.H. REV. STAT. ANN. § 651:5 | 30 days |
| New Jersey | N.J. STAT. ANN. § 2C:52-6 | Immediate |
| New Mexico | N.M. STAT. ANN. § 29-3A-4 | 1 year |
| New York | N.Y. CRIM. PROC. LAW § 160.50 | 5 days |

| STATE | STATUTE(S) | WAITING PERIOD |
|-----------------------|---|---|
| North Carolina | N.C. GEN. STAT. § 15A-146 | Immediate |
| Ohio | OHIO REV. CODE. ANN. §§ 2953.52, 2953.521 | Immediate to 2 years |
| Oklahoma | OKLA. STAT. tit. 22, § 18 | Immediate to after the statute of limitations has run |
| Oregon | OR. REV. STAT. § 137.225 | Immediate to 1 year |
| Pennsylvania | 18 PA. CONS. STAT. §§ 9122, 9122.2 | Immediate |
| Rhode Island | R.I. GEN. LAWS § 12-1-12 | 60 days |
| South Carolina | S.C. CODE ANN. § 17-1-40 | Immediate |
| South Dakota | S.D. CODIFIED LAWS § 23A-3-27 | Immediate to 1 year |
| Tennessee | TENN. CODE ANN. § 40-32-101 | Immediate |
| Texas | TEX. CODE CRIM. PROC. ANN. art. § 55.01 | Immediate to 3 years |
| Utah | UTAH CODE ANN. §§ 77-40-104, 77-40-114 | Immediate to after the statute of limitations has run |
| Vermont | VT. STAT. ANN. tit. 13, § 7603 | Immediate |
| Virginia | VA. CODE ANN. § 19.2-392.2 | Immediate |
| Washington | WASH. REV. CODE § 10.97.060 | 2 years to 3 years |
| West Virginia | W. VA. CODE § 61-11-25 | 60 days |
| Wisconsin | WIS. STAT. § 165.84 | Immediate |
| Wyoming | WYO. STAT. ANN. § 7-13-1401 | 180 days |

APPENDIX B: State Misdemeanor Conviction Sealing Laws (41 States)

| STATE | STATUTE(S) | EXCLUDE OFFENSES (Y/N)* | WAITING PERIOD | QUANTITY LIMITS** |
|---------------|--|-------------------------|--|---|
| Arkansas | ARK. CODE ANN. § 16-90-1405 | Y | Upon completion of sentence to 5 years | None |
| California | CAL. PENAL CODE §§ 1203.4, 1203.4a, 1203.41, 1203.425 | Y | 1 year | None |
| Colorado | COLO. REV. STAT. §§ 24-72-703, 24-72-706 | Y | 1 year to 3 years | One petition every 12 months |
| Connecticut | CONN. GEN. STAT. § 54-142a | N | 3 years | None |
| Delaware | DEL. CODE ANN. tit. 11, §§ 4373, 4374 | Y | 5 years to 7 years | No prior convictions |
| Georgia | GA. CODE ANN. § 35-3-37 | Y | 4 years | Up to two misdemeanor convictions |
| Illinois | 20 ILL. COMP. STAT. 2630/5.2 | Y | 3 years | None |
| Indiana | IND. CODE §§ 35-38-9-2, 35-38-9-9 | Y | 5 years | One petition per lifetime |
| Iowa | IOWA CODE § 901C.3 | Y | 8 years | One petition per lifetime |
| Kansas | KAN. STAT. ANN. § 21-6614 | Y | 3 years | No sealing of any record while offender is required to register |
| Kentucky | KY. REV. STAT. ANN. § 431.078 | Y | 5 years | None |
| Louisiana | LA. CODE CRIM. PROC. ANN. art. 977 | Y | 5 years | One petition every 5 years |
| Maryland | MD. CODE ANN., CRIM. PROC. §§ 10-105, 10-110 | Y | 4 years to 15 years | None |
| Massachusetts | MASS. GEN. LAWS ch. 276, §§ 100A, 100G, 100I | Y | 3 years | None |
| Michigan | MICH. COMP. LAWS §§ 780.621, 780.621c, 780.621g, 780.624 | Y | 3 years to 7 years | Up to four misdemeanor convictions |
| Minnesota | MINN. STAT. § 609A.02 | N | 2 years to 4 years | None |
| Mississippi | MISS. CODE ANN. § 99-19-71 | N | Upon completion of sentence | First offense only |
| Missouri | MO. REV. STAT. § 610.140 | Y | 3 years | Up to two misdemeanor convictions |
| Montana | MONT. CODE ANN. § 46-18-1104 | N | 5 years | One petition per lifetime |
| Nevada | NEV. REV. STAT. ANN. § 179.245 | N | 1 year to 7 years | None |

| STATE | STATUTE(S) | EXCLUDE OFFENSES (Y/N)* | WAITING PERIOD | QUANTITY LIMITS** |
|-----------------------|--|-------------------------|--|---|
| New Hampshire | N.H. REV. STAT. ANN. § 651:5 | N | 1 year to 3 years | One petition every 3 years |
| New Jersey | N.J. STAT. ANN. §§ 2C:52-2, 2C:52-3, 2C:52-5.3, 2C:52-14 | N | 5 years to 10 years | Up to five misdemeanor convictions |
| New Mexico | N.M. STAT. ANN. § 29-3A-5 | Y | 2 years to 4 years | None |
| New York | N.Y. CRIM. PROC. LAW § 160.59 | N | 10 years | Up to two misdemeanor convictions |
| North Carolina | N.C. GEN. STAT. § 15A-145.5 | Y | 5 years | First offense only |
| North Dakota | N.D. CENT. CODE § 12-60.1-02 | Y | 3 years | None |
| Ohio | OHIO REV. CODE. ANN. § 2953.31 | Y | 1 year | Up to two misdemeanor convictions |
| Oklahoma | OKLA. STAT. tit. 22, § 18 | N | Upon completion of sentence to 5 years | No prior felony convictions |
| Oregon | OR. REV. STAT. § 137.225 | N | 3 years | No prior convictions within the past 10 years |
| Pennsylvania | 18 PA. CONS. STAT. §§ 9122.1, 9122.2 | Y | 10 years | Certain prior convictions bar sealing |
| Rhode Island | R.I. GEN. LAWS § 12-1.3-2 | Y | 5 years to 10 years | Up to six misdemeanor convictions |
| South Carolina | S.C. CODE ANN. §§ 22-5-910, 22-5-920 | Y | 3 years to 5 years | None |
| South Dakota | S.D. CODIFIED LAWS §§ 23A-3-33, 23A-3-34 | Y | 10 years | None |
| Tennessee | TENN. CODE ANN. § 40-32-101 | Y | 5 years | No prior convictions |
| Texas | TEX. GOV'T CODE ANN. § 411.0735 | Y | Upon completion of sentence to 2 years | First offense only |
| Utah | UTAH CODE ANN. §§ 77-40-102, 77-40-105, 77-40-114 | Y | 3 years to 7 years | Certain prior convictions bar sealing |
| Vermont | VT. STAT. ANN. tit. 13, §§ 7041, 7601, 7602 | Y | 5 years to 10 years | None |
| Washington | WASH. REV. CODE § 9.96.060 | Y | 3 years | None |
| West Virginia | W. VA. CODE § 61-11-26 | Y | 1 year to 2 years | Can only obtain sealing once |
| Wisconsin | WIS. STAT. § 973.015 | N | Upon completion of sentence | First offense only |
| Wyoming | WYO. STAT. ANN. § 7-13-1501 | Y | 5 years | Can only obtain sealing once |

* For "Exclude Offenses", Y denotes that the state excludes at least some misdemeanor offenses from being eligible for sealing, while N denotes that the state does not exclude any misdemeanor offenses from such eligibility.

** Generally, where states limit the number of convictions that can be sealed, those states provide an exception for instances when multiple convictions stemmed from the same event.

APPENDIX C: State Felony Conviction Sealing Laws (36 States)

| STATE | STATUTE(S) | INCLUDE VIOLENT FELONIES (Y/N)* | WAITING PERIOD | QUANTITY LIMITS** |
|----------------------|--|---------------------------------|--|---|
| Arkansas | ARK. CODE ANN. §§ 16-90-1406, 16-90-1408 | Y | Upon completion of sentence to 5 years | No more than one previous felony conviction |
| California | CAL. PENAL CODE §§ 1203.4, 1203.4a, 1203.41, 1203.425 | Y | End of probation period | None |
| Colorado | COLO. REV. STAT. §§ 18-1.3-103.5, 24-72-703, 24-72-706 | Y | 3 years to 5 years | One petition every 12 months |
| Connecticut | CONN. GEN. STAT. § 54-142a | Y (all offenses) | 5 years | None |
| Delaware | DEL. CODE ANN. tit. 11, §§ 4372, 4374, 4375 | N | 7 years | No prior convictions |
| Illinois | 20 ILL. COMP. STAT. 2630/5.2 | Y | 3 years or until petitioner is no longer required to register | No prior felony convictions |
| Indiana | IND. CODE §§ 35-38-9-3, 35-38-9-4, 35-38-9-5, 35-38-9-9 | Y | 3 years to 10 years | One petition per lifetime |
| Kansas | KAN. STAT. ANN. § 21-6614 | Y | 3 years to 5 years | No sealing of any record while offender is required to register |
| Kentucky | KY. REV. STAT. ANN. § 431.073 | N | 5 years | Only one felony conviction |
| Louisiana | LA. CODE CRIM. PROC. ANN. art. 978 | N | 10 years | One petition every 15 years |
| Maryland | MD. CODE ANN., CRIM. PROC. § 10-110 | Y | 7 years to 15 years | None |
| Massachusetts | MASS. GEN. LAWS ch. 276, §§ 100A, 100G, 100I | Y | 7 years | None |
| Michigan | MICH. COMP. LAWS §§ 780.621, 780.621c, 780.621g, 780.624 | Y | 5 years to 10 years | Up to two felony convictions |
| Minnesota | MINN. STAT. § 609A.02 | Y | 5 years | None |
| Mississippi | MISS. CODE ANN. § 99-19-71 | N | 5 years | Only one felony conviction |
| Missouri | MO. REV. STAT. § 610.140 | N | 7 years | Only one felony conviction |
| Nevada | NEV. REV. STAT. ANN. § 179.245 | Y | 2 years to 10 years | None |

| STATE | STATUTE(S) | INCLUDE VIOLENT FELONIES (Y/N)* | WAITING PERIOD | QUANTITY LIMITS** |
|-----------------------|---|---------------------------------|-----------------------------|--|
| New Hampshire | N.H. REV. STAT. ANN. § 651:5 | N | 2 years to 10 years | One petition every 3 years |
| New Jersey | N.J. STAT. ANN. §§ 2C:52-2, 2C:52-5.3, 2C:52-14 | Y | 5 years to 10 years | Only one felony conviction |
| New Mexico | N.M. STAT. ANN. § 29-3A-5 | N | 4 years to 10 years | None |
| New York | N.Y. CRIM. PROC. LAW § 160.59 | N | 10 years | Only one felony conviction |
| North Carolina | N.C. GEN. STAT. § 15A-145.5 | N | 10 years | First offense only |
| North Dakota | N.D. CENT. CODE § 12-60.1-02 | Y | 5 years | None |
| Ohio | OHIO REV. CODE. ANN. §§ 2953.31, 2953.32, 2953.36 | N | 3 years to 5 years | Up to five felony convictions |
| Oklahoma | OKLA. STAT. tit. 22, § 18 | N | 5 years to 10 years | No prior felony convictions up to two felony convictions |
| Oregon | OR. REV. STAT. § 137.225 | Y | 3 years to 20 years | No prior convictions within the past 10 years |
| Pennsylvania | 18 PA. CONS. STAT. § 9122.1 | N | 10 years | Certain prior convictions bar sealing |
| Rhode Island | R.I. GEN. LAWS §§ 12-1.3-1, 12-1.3-2 | N | 10 years | First offense only |
| South Carolina | S.C. CODE ANN. § 22-5-920 | N | 5 years | First offense only |
| Tennessee | TENN. CODE ANN. § 40-32-101 | N | 5 years to 10 years | No prior convictions |
| Utah | UTAH CODE ANN. § 77-40-105 | N | 5 years to 10 years | Certain prior convictions bar sealing |
| Vermont | VT. STAT. ANN. tit. 13, §§ 7601, 7602 | Y | 5 years to 10 years | None |
| Washington | WASH. REV. CODE § 9.94A.640 | Y | 5 years to 10 years | None |
| West Virginia | W. VA. CODE § 61-11-26 | N | 5 years | Can only obtain sealing once |
| Wisconsin | WIS. STAT. § 973.015 | N | Upon completion of sentence | First offense only |
| Wyoming | WYO. STAT. ANN. § 7-13-1502 | N | 10 years | Can only obtain sealing once |

* For "Include Violent Felonies," Y denotes that the state allows specified violent offense convictions to be sealed, while N denotes that the state does not allow any violent offense convictions to be sealed.

** Generally, where states limit the number of convictions that can be sealed, those states provide an exception for instances when multiple convictions stemmed from the same event.

APPENDIX D: State Sealing of Specified Convictions

| SPECIFIED CONVICTIONS | STATES |
|------------------------------------|---|
| Sex Trafficking Victims | Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Washington, West Virginia, Wisconsin, Wyoming (45) |
| Felony Larceny | Arkansas, California, Colorado, Connecticut, Delaware, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Rhode Island, South Carolina, Utah, Vermont, Washington, West Virginia, Wisconsin, Wyoming (34) |
| Mistaken or Stolen Identity | Alaska, Arizona, Colorado, D.C., Florida, Illinois, Kansas, Massachusetts, Missouri, Montana, Nebraska, New Jersey, North Carolina, Oklahoma, Rhode Island, Tennessee, Virginia (17) |
| Marijuana | California, Delaware, Illinois, Maryland, Michigan, Minnesota, New Hampshire, New Jersey, New York, North Dakota, Oregon, Washington (12) |
| Decriminalized Offenses | California, Connecticut, Delaware, D.C., Illinois, Maryland, Massachusetts, Nevada, Rhode Island, Vermont (10) |

APPENDIX E: Offenses Commonly Excluded from State Sealing Statutes

| DOMESTIC ASSAULT & BATTERY AND PROTECTIVE ORDER VIOLATIONS | | |
|--|--|---|
| FELONY DOMESTIC A&B | MISDEMEANOR DOMESTIC A&B | PROTECTIVE ORDER VIOLATIONS |
| Arkansas, Colorado, Illinois, Iowa, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Missouri, North Carolina, North Dakota, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Utah, West Virginia, Wyoming (20) | Colorado, Illinois, Iowa, Missouri, North Carolina, Rhode Island, Tennessee, Utah, West Virginia (9) | Illinois, Kentucky, Massachusetts, Missouri, Tennessee, Vermont, Washington (7) |

| DRIVING UNDER THE INFLUENCE | |
|---|---|
| FELONY DUI OFFENSES | MISDEMEANOR DUI OFFENSES |
| Colorado, Illinois, Kentucky, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nevada, New Mexico, North Carolina, Pennsylvania, Rhode Island, Tennessee, Utah, Washington, West Virginia (17) | Colorado, Illinois, Iowa, Maryland, Michigan, Missouri, New Mexico, North Carolina, Rhode Island, Tennessee, Utah, West Virginia (12) |

APPENDIX F: State Waiting Periods for Sealing of Convictions

| COMMENCEMENT OF WAITING PERIOD | |
|--|--|
| WAITING PERIOD BEGINS AT: | STATE |
| Completion of Sentence | Arkansas, Georgia, Illinois, Maryland, Minnesota, Mississippi, Missouri, Montana, New Hampshire, New Mexico, Ohio, Oklahoma, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Washington, Wisconsin (19) |
| Date of Conviction | Indiana, Iowa, Oregon, Pennsylvania, Utah (5) |
| Date of Offense | Massachusetts, South Dakota (2) |
| Date of Disposition | Connecticut (1) |
| End of Probation and/or Parole | California (1) |
| Latest time period of either completion of sentence or release from probation/parole | Colorado, Kansas, Kentucky, Louisiana, Michigan (5) |
| Latest time period of either conviction and sentencing or release from incarceration | Delaware, New York (2) |
| Latest time period of either release from custody or discharge from probation/parole | Nevada, North Dakota (2) |
| Latest time period of either conviction, payment of restitution, completion of probation/parole, or release from incarceration | New Jersey, Wyoming (2) |
| Latest time period of either conviction, completion of sentence, or end of supervision | North Carolina, West Virginia (2) |

APPENDIX G: State Restitution Requirements for Sealing

| | |
|---|---|
| Restitution must be paid before sealing | Arkansas, Colorado, Indiana, Iowa, Missouri, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, Tennessee, Texas, Utah, Vermont, West Virginia, Wyoming (18) |
| Restitution may be paid after sealing | Delaware, Illinois, Michigan, Minnesota, New Jersey (5) |
| Restitution not specifically addressed in sealing statutes | California, Connecticut, Georgia, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Mississippi, Montana, Nevada, New Hampshire, New York, Oregon, South Carolina, South Dakota, Washington, Wisconsin (18) |

APPENDIX H: State Burdens of Proof for Sealing (Non-Convictions and Convictions)

| COURT DISCRETION WHETHER STATUTORY REQUIREMENTS HAVE BEEN SATISFIED | CLEAR AND CONVINCING EVIDENCE | PREPONDERANCE OF THE EVIDENCE |
|---|---|---|
| California, Colorado, Connecticut, Illinois, Iowa, Kansas, Maryland, Massachusetts, Michigan, Mississippi, Missouri, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Washington, Wisconsin, Wyoming (29) | Arkansas, Kentucky, Minnesota, North Dakota, South Dakota, Utah, West Virginia (7) | Delaware, Georgia, Indiana, Louisiana, Montana (5) |

APPENDIX I: State Employment Sealing Provisions

| EMPLOYMENT PROVISIONS* | STATES |
|--|---|
| Person may deny existence of a sealed conviction without exceptions | Delaware, Kentucky, Maryland, Mississippi, Montana, Oklahoma, Oregon, South Carolina, South Dakota, Tennessee, Vermont, Washington (12) |
| Person may deny existence of a sealed conviction with exceptions | Arkansas, California, Colorado, Connecticut, Illinois, Indiana, Kansas, Louisiana, Massachusetts, Michigan, Minnesota, Missouri, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Pennsylvania, Rhode Island, Texas, Utah, West Virginia (25) |
| Person cannot deny existence of a sealed conviction | Georgia, Iowa, Wisconsin, Wyoming (4) |
| Law limits questions that employers may ask regarding sealed convictions | California, Colorado, Connecticut, Illinois, Indiana, Massachusetts, New Hampshire, New York, Ohio, Oklahoma, Pennsylvania, Texas, Utah, Vermont (14) |
| Law limits liability for employers who hire persons with sealed convictions | Indiana, Massachusetts, Michigan, Minnesota, Pennsylvania, South Carolina (6) |

* The term "person" refers to an individual who has had a criminal conviction sealed.

APPENDIX J: State Maintenance of Sealed Records for Criminal Justice and Employment Purposes

| CRIMINAL JUSTICE PURPOSES | |
|---|--|
| States that maintain sealed records for criminal justice purposes* | Arkansas, California, Colorado, Connecticut, Delaware, Georgia, Illinois, Indiana, Iowa, Kansas, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nevada, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Washington, West Virginia, Wisconsin, Wyoming (39) |
| Access to sealed records granted by court order | Colorado, Delaware, Georgia, Illinois, Indiana, Iowa, Kansas, Louisiana, Maryland, Massachusetts, Minnesota, Nevada, New Jersey, North Carolina, North Dakota, Oklahoma, Oregon, Pennsylvania, Rhode Island, Texas, Utah, Vermont, West Virginia (23) |
| Law enforcement investigations | Colorado, Delaware, Georgia, Illinois, Louisiana, Maryland, Massachusetts, Minnesota, Mississippi, Montana, New Hampshire, New York, Ohio, Oklahoma, Oregon, Rhode Island, Vermont, West Virginia, Wisconsin, Wyoming (20) |
| Sentencing and/or penalty enhancement | Arkansas, California, Indiana, Kansas, Louisiana, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Rhode Island, South Dakota, Tennessee, Texas, Utah, Washington (20) |
| Impeachment or other evidentiary purpose | Arkansas, California, Colorado, Connecticut, Georgia, Illinois, Indiana, Kansas, Louisiana, Maryland, Massachusetts, Minnesota, Mississippi, Missouri, Nevada, Ohio, Texas (17) |
| Use for determining or preventing future sealing requests | Colorado, Delaware, Kansas, Massachusetts, Michigan, Mississippi, Missouri, Nevada, New Jersey, North Carolina, Oklahoma, South Carolina (12) |

* Several states maintain sealed records for multiple criminal justice purposes, and therefore these states are included in multiple categories within this table.

| EMPLOYMENT PURPOSES | |
|--|---|
| States which maintain sealed records for employment purposes* | Arkansas, California, Colorado, Delaware, Georgia, Illinois, Indiana, Kansas, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Pennsylvania, Rhode Island, Texas, Utah, West Virginia (26) |
| Professional licensing boards | Arkansas, California, Colorado, Illinois, Indiana, Kansas, Louisiana, Michigan, Minnesota, Missouri, Nevada, New Jersey, New Mexico, North Dakota, Ohio, Pennsylvania, Rhode Island, Texas, Utah, West Virginia (19) |
| Law enforcement background checks | Arkansas, Delaware, Georgia, Illinois, Kansas, Michigan, Minnesota, Missouri, New Hampshire, New York, North Carolina, Rhode Island, Texas, Utah, West Virginia (15) |

* Several states maintain sealed records for multiple employment purposes, and therefore these states are included in multiple categories within this table.

APPENDIX K: States with Automatic Sealing Laws (5 States)

| CALIFORNIA | |
|----------------------|--|
| Code Section: | CAL. PENAL CODE § 1203.425 |
| Enacted: | October 8, 2019; amended August 6, 2020 |
| Implementation Date: | July 1, 2022 |
| Overview | <p>Creates an automatic sealing process for:</p> <ul style="list-style-type: none"> • Non-convictions after varying timeframes, which are based on whether criminal proceedings were initiated; • Misdemeanors and infractions after 1 year from conviction if not sentenced to probation; • Any offense if a person is sentenced only to probation and the person completes that sentence without a revocation of probation. <p>A person will not qualify for automatic sealing if they are a registered sex offender, on active probation, serving a sentence for another offense, or have pending criminal charges.</p> <p>California's clean slate process will only apply to offenses that occurred on or after January 1, 2021 (not retroactive).</p> |

| MICHIGAN | |
|----------------------|---|
| Code Section: | MICH. COMP. LAWS § 780.621g |
| Enacted: | October 13, 2020 |
| Implementation Date: | April 11, 2023 |
| Overview | <p>Creates an automatic sealing process for:</p> <ul style="list-style-type: none"> • Non-convictions, subject to certain conditions; • Certain misdemeanor convictions 7 years from the imposition of the sentence; • Certain felony convictions after 10 years from the imposition of the sentence or the completion of any term of imprisonment. <p>Felonies and certain misdemeanors cannot be automatically sealed if a person has charges pending or has been convicted of another offense.</p> <p>No more than 2 felony and 4 misdemeanor convictions in total can be automatically sealed, excluding low-level misdemeanors.</p> |

| NEW JERSEY | |
|----------------------|--|
| Code Section: | N.J. STAT. ANN. § 2C:52-5.4 |
| Enacted: | December 18, 2019 |
| Implementation Date: | There is currently no projected date for implementation. |
| Overview | Enacted legislation in 2019 to implement an automated sealing system. A task force was created to examine technological, fiscal, and practical issues and challenges of such a system. |

| PENNSYLVANIA | |
|----------------------|---|
| Code Sections: | 18 PA. CONS. STAT. §§ 9122.2 & 9122.3 |
| Enacted: | June 28, 2018 |
| Implementation Date: | June 28, 2019 |
| Overview | <p>Pennsylvania is the only state that has actually implemented an automatic conviction relief system.</p> <p>Creates an automatic sealing process for:</p> <ul style="list-style-type: none"> • Non-convictions; • Certain misdemeanor convictions after 10 years if there are no subsequent misdemeanor or felony convictions and all court-ordered restitution has been paid. <p>Certain prior convictions will disqualify a person from automatic sealing, such as a felony, four misdemeanors, indecent exposure, and various other offenses.</p> |

| UTAH | |
|----------------------|---|
| Code Sections: | UTAH CODE ANN. §§ 77-40-102, 77-40-114, 77-40-115, & 77-40-116 |
| Enacted: | March 28, 2019 |
| Implementation Date: | In the developmental phase - it is uncertain when it will be completely implemented. |
| Overview | <p>Creates an automatic sealing process for:</p> <ul style="list-style-type: none"> • Non-convictions (not guilty, nolle prosequi, or dismissed); • Specified traffic offenses; • Dismissals without prejudice after 180 days; • Certain misdemeanor convictions after 5 – 7 years. <p>A person will not qualify for automatic sealing if they have unpaid fines, fees, or restitution, pending criminal charges, or certain prior convictions on their criminal record</p> |

APPENDIX L: State Sealing Data

| PENNSYLVANIA AUTOMATIC SEALING DATA: JUNE 28, 2019 TO DECEMBER 15, 2020* | |
|---|--|
| TYPES OF CASES AND OFFENSES | TOTAL CASES AND OFFENSES EXPUNGED |
| Non-conviction Cases | 16,354,636 |
| Non-conviction Offenses | 28,858,513 |
| Conviction Summary Cases** | 19,615,037 |
| Conviction Summary Offenses** | 19,830,748 |
| Conviction Misdemeanor Cases | 94,109 |
| Conviction Misdemeanor Offenses | 116,612 |
| Total Cases Expunged | 36,065,463 |
| Total Offenses Expunged | 48,809,708 |

Data from this table is available online at <http://www.pacourts.us/assets/files/setting-7047/file-8210.pdf?cb=5fb88e> (document can be accessed via the Pennsylvania courts website: <http://www.pacourts.us/learn/learn-about-the-judicial-system/clean-slate-expungement-and-limited-access>).

*Pennsylvania uses the term "limited access," which is similar to sealing.

**A summary offense is generally punished by a fine of under \$1,000, imprisonment of 90 days or less, or both.

| PENNSYLVANIA SEALING DATA (PETITION-BASED): NOVEMBER 2016 TO DECEMBER 2020* | |
|--|-------|
| Cases Expunged by Petition | 1,681 |
| Offenses Expunged by Petition | 3,835 |

Data from this table is available online at <http://www.pacourts.us/assets/files/setting-7047/file-8210.pdf?cb=5fb88e> (document can be accessed via the Pennsylvania courts website: <http://www.pacourts.us/learn/learn-about-the-judicial-system/clean-slate-expungement-and-limited-access>).

*Pennsylvania uses the term "limited access," which is similar to sealing.

| ILLINOIS EXPUNGEMENT AND SEALING DATA (PETITION-BASED) | | |
|---|--|--|
